MERITS OF FORAGE DEVELOPED BULLS:

- ✓ Efficient - raised without creep feed
- ✓ Forage Testing - eliminates hard doing bulls
- ✓ Profitability - less feedlot time for progeny
- ✓ Adaptability - thrive in our hot, humid climate
- ✓ Pasture Ready - do not fall apart
- ✓ Structurally Sound - less feet and leg problems
- ✓ Healthy Development - less fat forms around scrotum
- ✓ Longevity - can extend by one to three breeding seasons
- ✓ Libido - tend to be higher in good, pasture ready bulls
- ✓ Finish - excellent breeding condition, not real fat
